Assignment 2

Process report	project schedule	20	
	who did what	20	
	cooperation of the members ex: availability, response time, willingness to help, knowledge contribution etc.	60	
	Total	100	Weight 20%
Analysis report	background		
what you did	dataset statistics 10	10	
	plots 10	10	
	remarks about data distributions 10	10	
	dataset pre-processing: report a replicable process of querying and/or feature engineering, and provide a rational	10	
	(in)dependent variables: analysis / rational 10	10	
	algorithm: which/why/how it works 5	5	
	parameters of algorithm used 10	10	
	Evaluation of model created 10	10	
	quality of the writing 10	10	
	final model description 10	10	
What you learned	What you learned 5	5	
Deductions	*1 full mark per page, 1 full mark for wrong format*		
	Total	100	Weight 60%
Kaggle ranking	Total	100	Weight 20%
